Index of Subjects

Adenovirus, the epidemiology of, infections in Greater Manchester, UK 1982–96, 333
AIDS, regional differences in presentation of, in Europe, 143

Campylobacter, a waterborne outbreak of small round structured virus, and shigella co-infections in La Neuveville, Switzerland, 1998, 325

Brucella, prevalence of antibodies to, spp. in cattle, sheep, goats, horses and camels in the State of Eritrea: influence of hsubandry systems, 447
Brucellosis, risk factors for human, in Yemen: a case control, 309

Campylobacter jejuni, epidemiologic application of pulsed-field gel electrophoresis to an outbreak of, in an Austrian youth centre, 13
Campylobacter, risk factors for indigenous, infection: a Swedish case-control study, 269
Campylobacter, spp., health burden in the Netherlands due to infection with thermophilic, 505
Chlamydial, PCR-based detection of, infection in swine and subsequent PCR-coupled genotyping of chlamydial *omp*1-gene amplicons by DNA-hybridization, RFLP-analysis, and nucleotide sequence analysis, 427
Corynebacterium, evidence of increased carriage of, spp. in healthy individuals with low antibody titres against diphtheria toxoid, 105
Creutzfeldt-Jacob disease, epidemiologic features of, patients with a history of cadaveric dura mater transplantation in Japan, 201
Cryptosporiodiosis, contaminated drinking water in one town manifesting as an outbreak of, in another, 79
Cryptosporidiosis, modelling the impact of prior immunity, case misclassification and bias on case-control studies in the investigation of outbreaks of, 713
Cryptosporidium, a serological survey of college students for antibody to, before and after the introduction of a new water filtration plant, 87
Cytomegalovirus, is, infection a co-factor in HIV-1 disease progression? 415

Dengue fever, surveillance of, in French Guiana by monitoring the results of negative malaria diagnoses, 189
Dengue, silent spread of, and dengue haemorrhagic fever to Coimbatore and Erode districts in Tamil Nadu, India, 1998 need for effective surveillance to monitor and control the disease, 195
Diphtheria, the sero-epidemiology of, in Western Europe, 113

Enteroviruses, presence of, and reoviruses in the waters of the Italian coast of the Adriatic Sea, 455
Eperythrozoon, prevalence of, spp. infection and congenital eperythrozoonosis in humans in Inner Mongolia, China, 421
Escherichia coli, a comparison of, O157 isolates from cattle in Japan and the USA by molecular biological methods, 221
Escherichia coli, detection and characterization of Shiga toxin-producing, from seagulls, 55
Escherichia coli, estimation of the under-reporting rate for the surveillance of, O157:H7 cases in Ontario, Canada, 35
Escherichia coli, genomic fingerprinting of shigatoxin-producing, (STEC) strains: comparison of pulsed-field gel electrophoresis (PFGE) and fluorescent amplified-fragment-length polymorphism (FAFLP), 537
Escherichia coli, investigation of human infections with verocytotoxin-producing strains of, (VTEC) belonging to serogroup O118 with evidence for zoonotic transmission, 47
Escherichia coli O157, infection with verocytotoxin-producing, during a visit to an inner city open farm, 531

Foot-and-mouth disease virus, genetic analysis of, type O isolates responsible for field outbreaks in India between 1993 and 1999, 729

Haemophilus influenzae type b, dynamics of natural immunity caused by subclinical infections, case study on, (Hib), 583
HBV, HCV and HDV infections in Albanian refugees in Southern Italy (Apulia region), 163
HCV, prevalence in pregnant women in the UK, 399
HCV, HBV and HDV infections in Albanian refugees in Southern Italy (Apulia region), 163
HDV, HBV and HCV infections in Albanian refugees in Albanian refugees in Southern Italy (Apulia region), 163
Hepatitis B and C among Berlin dental personnel: incidence, risk factors, and effectiveness of barrier prevention measures, 407
Hepatitis B, a severe and explosive outbreak of, in a rural population in Sirsa district, Haryana, India: unnecessary therapeutic injections were a major risk factor, 693
Hepatitis B, community studies on, in Rajahmundry town of Andhra Pradesh, India, 1997–8: unnecessary therapeutic injections are a major risk factor, 366
Hepatitis B, prevalence of, anti-core antibody in the Republic of Ireland, 701
Hepatitis C, the prevalence and genetic diversity of, infection in antenatal clinic attenders in two regions of England, 705
Hepatitis B virus (HBV), high circulation of, precore mutants in Tunisia, North Africa, 169
Herpes simplex virus type-2 antibodies in pregnant women: the imapct of the stage of pregnancy, 685
HIV incidence rates among drug users in northern Thailand, 1993–7, 153

HIV-1, is cytomegalovirus infection a co-factor in, disease progression? 415
HIV-1, seroprevalence of, and HTLV in a representative sample of the Spanish population, 159
House mice, the prevalence of viral antibodies during a large population fluctuation of, in Australia, 719
HTLV, seroprevalence of HIV and, in a representative sample of the Spanish population, 159
Human herpes virus type 8, serological and virological evidence of non-sexual transmission of, (HHV8), 671

Influenza, vaccine effectiveness for, in the elderly in welfare nursing homes during an infleunza A (H3N2) epidemic, 393

Klebsiella terrigena, characterization of, strains from humans: haemagglutinins, serum resistance, siderophore synthesis, and serotypes, 71

Legionnaires' disease, strengths and limitations of molecular subtyping in a community outbreak of, 599
Listeria monocytogenes, comparative investigations of, isolated from a turkey processing plant, turkey products, and from human cases of listeriosis in Denmark, 303

Measles, the European Sero-Epidemiology Network: standardizing the enzyme immunoassay results for, mumps and rubella, 127
Measles, the epidemiology of, in Poland: prevalence of measles virus antibodies in the population, 385
Measles, the pre-vaccination epidemiology of, mumps and rubella in Europe: implications for modelling studies, 635
Measles, UK, outbreak in non-immune anthroposophic communities: the implications for the elimination of measles from Europe, 377
Meningitis, population-based surveillance for bacterial, in the Domincan Republic: implications for control by vaccination, 549
Meningococcal, determinants of case fatality rates of, disease during outbreaks in Makkah, Saudi Arabia, 1987–97, 555
Meningococcal, improved methods of detection of, DNA from oropharyngeal swabs from cases and contacts of meningococcal disease, 277
Mumps, the European Sero-Epidemiology Network: standardizing the enzyme immunoassay results for measles, and rubella, 127
Mumps, the pre-vaccination epidemiology of measles, and rubella in Europe: implications for modelling studies, 635
Mycoplasma fermentans, lack of serological evidence for, infection in army Gulf War veterans: a large scale case-control study, 609

Neisseria meningitidis, genetic characterization of a new variant within the ET-37 complex of, associated with outbreaks in various parts of the world, 285
N. lactamica, carriage of, in a population at high risk of meningococcal disease, 99
Norwalk-like viruses (NLV), widespread environmental contamination with, detected in a prolonged hotel outbreak of gastroenteritis, 93

Photobacterium damselae* subsp. *piscicida existence of geographically-linked clonal lineages in the bacterial fish pathogen, evidenced by random amplified DNA analysis, 213
Plague, serodiagnosis of human, by an anti-F1 capsular antigen specific IgG/IgM ELISA and immunoblot, 593
Plesiomonas shigelloides, an epidemiological study of, diarrhoea among Japanese travellers, 523
Pneumococcal, serotype/groups distribution and antimicrobial resistance of invasive, isolates: implications for vaccine strategies, 561

Rabies, human, in Lebanon: lessons for control, 175
Rattus norvegicus, a long-term study of, in the London Borough of Enfield using baiting returns as an indicator of sewer population levels, 441
Reoviruses, presence of enteroviruses and, in the waters of the Italian coast of the Adriatic Sea, 455
Rotavirus, incidence, seasonality and serotypes of, in Gipuzkoa (Basque Country), Spain. A 14-year study, 677
Rubella in the Russian Federation: epidemiological features and control measures to prevent the congenital rubella syndrome, 359
Rubella, modelling, in Europe, 617
Rubella, the European Sero-Epidemiology Network: standardizing the enzyme immunoassay results for measles, mumps and, 127
Rubella, the pre-vaccination epidemiology of measles, mumps and, in Europe: implications for modelling studies, 635
Rubella, the seroepidemiology of, in western Europe, 347

Salmonella blockley, an outbreak of, infections following smoked eel consumption in Germany, 9
Salmonella enterica, host adapted serotypes of, 229
***Salmonella* Enteritidis**, the pandemic of, phage type 4 reaches Utah: a complex investigation confirms the need for continuing rigorous control measures, 1
***Salmonella*,** evaluation of a serological, Mix-ELISA for poultry used in a national surveillance programme, 263
Salmonella, salmonella in sub-Antarctica: low heterogeneity in, serotypes in South Georgian seals and birds, 257
***Salmonella*, serotype Infantis**, initially unrecognised distribution of a commercially cooked meat product contaminated over several months with, 491
Salmonella, the role of outbreaks in developing food safety policy: population based surveillance of salmonella outbreaks in Wales 1986–98, 467
***Salmonella* Typhimurium**, emerging antibiotic resistance in, in Norway, 473
Serratia marcescens, interpretation of band differences to distinguish strains of, by pulsed-field gel electrophoresis of *Xba*I DNA digests, 63
Shigella, a waterborne outbreak of small round structured virus, campylobacter and, co-infections in La Neuveville, Switzerland, 1998, 325
***Shigella sonnei*,** a community waterborne outbreak of gastro-enteritis attributed to, 499
Small round structured virus, a waterborne outbreak of, campylobacter and shigella co-infections in La Neueville, Switzerland, 1998, 325
St. Louis encephalitis, epidemiological features of and public health response to a, epidemic in Florida, 1990–1, 181

Streptococci, genetic relatedness of group A, of the newly designated serotype M90 causing a food-borne outbreak and sporadic infections, 299

Steptococcus pneumoniae, the prevalence and clonal diversity of penicillin-resistant, in Kuwait, 573

Tuberculosis drug resistance in England and Wales. How much is 'home-grown'? 463

Tuberculosis in the veterans healthcare system: a six-year review and evaluation of programme effectiveness, 315

Varicella zoster virus, modelling the impact of immunization on the epidemiology of, 651

Vibrio cholerae, detection of virulence associated genes, haemolysin and protease amongst, isolated in Malaysia, 27

Vibrio parahaemolyticus, clonal dissemination of, displaying similar DNA fingerprint but belonging to two different serovars (O3: K6 and O4:K68) in Thailand and India, 17

Wuchereria bancrofti, transmission of the nocturnal periodic strain of, by *Culex quinquefasciatus*: establishing the potential for urban filariasis in Thailand, 207
